**ACTION:**

In order to obtain a Land Use Permit, the following must happen:

- A. The Zoning Administrator must review and approve the Sewer Compliance Inspection report.
- B. The City Clerk must verify all current billings and insure that the applicant is current on all payments.
- C. The Zoning Administrator must insure that the permit fee has been collected.
- D. The Zoning Administrator must insure that the proposed improvements meet the requirements of the Ordinance.

**PLEASE NOTE: The City has 60 days in which to review and make a decision on land use applications, although the City strives to process all applications as soon as they are received. To avoid delays, applicants should allow themselves as much time as possible between the time they submit their application and the time they wish to begin construction. Close coordination with the City Staff during the project design phase and submittals that are complete and accurate will help applicants avoid delays. No construction can begin until the permit is complete and approved.**
